“ Claire posted a condolence I love my Aunt Dana so much. She would always call me her favorite niece (considering I was her only niece) and since neither of my parents had blue eyes she used to tell me I got them from her. I am heartbroken by her death because she was like another mother to me and I'm trying to cope with her death but its difficult. I'm supposed to be in school doing work right now but I'd rather we writing this because even though its been months I'm not ready to move on just yet.

“ Stephanie Rembes posted a symbolic gesture I worked with Dana in Tampa and she was such a sweetie. I was heartbroken to hear of her passing. She always brought a smile and a laugh where ever she went. My sincere condolences and prayers to you at this time of sorrow. Heaven has gained another angel.
