“ *Brian J. Davis posted a condolence Gene, My deepest sympathies to you and your family. From the stories we shared over the years, I felt like I knew your wife. I know she was a saint, or as close as one can come to that lofty goal. I wish she had been with us to see the Pope. Please stay close to us at St. Thomas More. you are still our spiritual leader and good friend. We want to be there for you as good friends should be. My wife and i will say a prayer for both of you and your family.*
